

## The 2008 Google Summer of Code: 21 Projects I'm Exc

Andrew Min gives you a taster of the open source goodies being developed a  
Aptitude, a GUI for Grub 2, search based menu browsing for GIMP and Aud  
amongst others. You can read (and/or listen) to the  
[href="http://www.freesoftwaremagazine.com/columns/2008\\_google\\_summer\\_cod](http://www.freesoftwaremagazine.com/columns/2008_google_summer_cod)  
Freesoftware Magazine</a>
