

Crossover Games 7.1 Released

CrossOver Games for Linux was originally released back in March (CrossOver team is still busy driving new features and games into both CrossOver Office and CrossOver Games) and a lot of this comes with the release of CrossOver Games 7.1.

With CrossOver Games 7.1 comes plenty of game fixes and a full menu of new games. <http://feeds.feedburner.com/~a/Phoronix?a=hxbd8R> <http://feeds.feedburner.com/~r/Phoronix/~4/344931703> height="1" width="1000"/>
